

"HELP KEEP US ON TRACK"

VOLUNTEERS NEEDED

On September 1, 2017, the Department of Recreation and Parks obtained the management and operations of the Baltimore and Ohio, Ellicott City Railroad Station Museum. The Living History and Heritage Program Section operates the Station Museum with a core mission to interpret and preserve the history of this National Historic Landmark site that was built in 1830.

The museum will house significant exhibits on local and national railroad history and offer year-round programs and living history events for a diverse audience. Free admission for regular tours will support local economic revitalization efforts on Main Street. Paid programs will support free admission and serve to enrich and enhance the visitor experience while weaving history and fun together in programs and events for all ages.

To meet this challenge, we need your help!

Do you love history?

Do you love to sew?

Are you a woodworker?

Do you love to decorate for holidays?

Would you like to bring history alive for our students and other visitors?

Then you're exactly who we are looking for! No experience is necessary, as we will provide all you will need to ensure a meaningful volunteer experience.

We are currently recruiting for the following needs:

- Docents – daily and events
- Program Assistance – creation and operation
- Reenacting – special weekends and events
- General museum cleaning
- Sewing – shipping sacks, canvas and burlap, period dress clothing for reenactors and displays
- Woodworking – period shipping crates for exhibits, wooden rifles for reenactors, artifact repair
- Holiday and seasonal decorating
- Holiday Train set up and maintenance
- Weeding and general outside maintenance
- Exhibit creation – rotating and permanent
- Research
- Artifact Acquisition
